Our Mission

Mirror aims to bring designers , developers and product lovers together through two days of fantastic talks and friendly networking. We feel there is a lack of quality events that engage with the necessary knowledge depth for both audiences that allows them to learn, while sharing their experiences.

Why Braga?

Braga has great tech companies with major international relevance, as well as young companies and startups and it's Portugal's third biggest city, with an amazing history and a great University.

It's a beautiful city that we learned to love as our own, with a vibrant and exciting mood that perfectly suits our conference!
